## Student Investment Analyst

Investment Team · Growth-Stage Venture Capital · Munich

12+ hours/week · Flexible schedule · Start: July 2026 · Duration: at least 1 year

---

### Want to see how the best European tech companies are built from the inside?

At Cipro, you won't just be watching from the sidelines. You'll directly support our investment professionals in deal sourcing and live transactions, evaluating some of Europe's most exciting growth-stage technology companies. This is a rare chance to get genuine, hands-on experience in Growth-Stage Venture Capital ("Growth Equity"): real analytical work that shapes real investment decisions.

#### Who We Are

Founded in 2003, Cipro is one of Europe's most established growth equity investment funds. We back technology companies that have outgrown the venture stage and need a strong, experienced partner to scale further. We're independent, partner-owned, and known for our speed, conviction, and deep operational expertise in the global tech industry.

Our team is lean, which means you'll work closely with decision makers, not buried in a large analyst pool.

#### What You'll Do

Being part of the investment team, you will support our investment professionals with:

- › **Deal Sourcing:** Identify and approach promising investment targets as part of our deal origination process
- › **Deal Execution:** Analyze products, markets, competitors, and business models during due diligence processes
- › **Portfolio Management:** Track KPIs and support the board work of the investment team
- › **Data & Tools:** Work with and improve internal and external data tools and workflows
- › **Ad Hoc:** Jump in on ad hoc analyses, internal presentations, etc. whenever needed

**Full-time during semester breaks? Possible.**

# CIPIO PARTNERS

## Who We're Looking For

We care more about your mindset, intelligence, level of motivation and cultural fit rather than mainstream CV criteria.

- › Ideally at the start of your Master's or end of your Bachelor's program in Business, Finance, or a quantitative/technical discipline
- › Sharp analytical skills and a structured, goal-oriented way of thinking
- › Proactive, hands-on attitude. You can take initiative to drive outcomes
- › Clear communicator in both German (business-fluent) and English (fluent)
- › Strong skills in Excel, PowerPoint and AI tools. Optionally (vibe) coding
- › Bonus: prior experience at a PE/VC fund, tech-focused investment bank, management consultancy, Big 4 deal advisory, or a scaleup/startup

## Why Cipro?

- › Real exposure from your first week, no "busywork"
- › Direct mentorship from experienced investment professionals
- › A front-row seat to Europe's growth technology ecosystem
- › A lean, highly experienced team where your work is seen and valued
- › A strong springboard into a career in PE, VC, investment banking, or tech
